Summary

Full Stack Developer with 6+ years of experience in developing and maintaining enterprise web applications using .NET, Java, springboot, Angular, and SQL. Proficient in RESTful APIs, and Azure Cloud, with strong expertise in implementing SOLID principles and design patterns. Adept at delivering high-quality solutions in multi-cultural, collaborative environments and committed to continuous improvement and customer satisfaction.

Professional Experience

Senior Software Engineer, (London Stock Exchange Group) Bengaluru, KA 06/2025 - present

- Developing and maintaining the applications for Faster Index Calculation and Reconciliation.
- Working on Index Calculation Tools, handling millions of rows on a daily basis.
- Upgraded the System to do Regenerations after data update, reducing processing time by 50%.
- Working on Application Modernization.

Specialist Software Engineer, (Societe Generale) Bengaluru, KA 07/2020 - 05/2025

- Designed, developed, and maintained web applications using .NET Core and Angular, adhering to SOLID principles and best practices.
- Implemented scalable RESTful APIs with enhancing system integration and performance.
- Collaborated with Business Analysts, Product Owners, and Architects to refine requirements and deliver features aligned with business needs.
- Developed and deployed applications on Azure Cloud, utilizing Azure Services and AKS for scalability and reliability.
- Conducted unit testing using xUnit to ensure code quality and reduce production defects.
- Supported production rollouts, implementing issue fixes and enhancements in non-production and production environments.
- Leveraged CI/CD pipelines using Jenkins, Xldeploy, Harbor, ACR, helm charts, argo CD for automated builds and deployments.

Projects

Mark Smart Credit 07/2020 - present

- Engineered a credit line management system using .NET Core 6, Angular, and SQL Server, ensuring scalability and security.
- Implemented GraphQL APIs to enable efficient querying and reduce server load.
- Conducted unit and integration testing using xUnit and automated testing frameworks.
- Integrated CI/CD pipelines using Azure DevOps to streamline deployments and improve delivery speed.
- Redesigned a normalized database, helping reduce the querying time and improving the overall performance of the application.
- **Tech Stack:** Dotnet Core/Framework, C# , Angular, PostgreSQL, Azure.

My Wall 07/2020 - present

- Designed responsive widgets for trade simulation using React JS, storybook and bootstrap
- Deployed applications on Azure Cloud, leveraging AKS for container orchestration and Azure SQL for data storage.
- **Tech Stack:** Dotnet, React, Preact, Storybook, Azure, Karma.

Adaptive Learning Management System 12/2019 - 04/2020

- A tool to assist conduction of cohorts, assessments with the help of AI algorithms.
- Contributed to develop the assessment module, result analysis module.
- **Tech Stack:** React JS, Node JS, Firebase, Firestore, Firebase Authentication.

Education

B.Tech. Computer Science with Specialization in Information Security Vellore Institute of Technology Vellore, TN 2

Relevant Courses: Web Development, Cryptography, Security of E-Based systems, Database Management Systems, Data

Courses & Certifications

- Google Cloud fundamentals - [Coursera](#)
- Intellipaat Devops Certification [Intellipaat](#)
- Introduction to Cybersecurity for Business [Coursera](#)
- Az-204 Microsoft Certified: Azure Developer Associate(Trained) [Microsoft E-Learning](#)
- Data Structures and Performance - [Coursera](#)
- Software Development Processes and Methodologies - [Coursera](#)
- Distributed Programming in Java - [Coursera](#)

Skills

- **Core Competencies:** Object-oriented Programming, Web development, Application development, end to end delivery.
- **Back End:** dotnet Core, C#, dotnet Framework, ASP.NET, Node Js, MVC, CS, RESTful APIs, GraphQL, Microservices Architecture, xUnit, SonarQube, Automated Testing.
- **Front End:** Angular 6, Angular 16, React, Typescript, HTML, HTML5, CSS, Bootstrap, Tailwind CSS, Jasmine, Karma.
- **Cloud:** Azure Cloud (Service Bus, AKS, Azure SQL).
- **Database:** PostgreSQL, MySQL, NoSQL(Firestore).
- **CI-CD:** Jenkins, XI-deploy, Argo CD, Kubernetes, Sonarqube, Checkmarkx, Docker.
- **other:** Project Management, Agile Scrum development, Rest API development, UI Design, UX design, Web API development, Secure Coding Practices.
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration, Adaptability. Customer orientation, Critical Thinking, Resilience

Awards and recognition

- **Star of Quarter:** Recognized for fast paced delivery, reducing the technical debt, project modernization.
- **Recognition to make project Data Driven:** Recognised for the data driven approach to develop the project. Resulting in easier and lesser support and maintenance,
- **Recognition for Stable Production:** To keep the production stable when serving as support manager for 4 different projects.
- **Merit List:** Got a Place in the University Merit List.

Languages

- **English** [Fluent]
- **Spanish** [Basic]
- **Hindi** [Native]
